Secret to Mini Cabbage Kimchi Taste

01

Different from typical Kimchi!

Special kimchi made by Gunsan mini cabbage

**It is made of mini
cabbage with a high sugar content
(Brix level between 7 and 10),
soft and fleshy leaves and
crunchy mouthfeel.**

Secret to Mini Cabbage Kimchi Taste

02

Crunchy taste even after fermentation

- ✓ Crunchy and sweet taste
- ✓ Made from 100% Korean ingredients

- ✓ Degraded mouthfeel as it ripens and softens

Mini Cabbage Kimchi vs Common Kimchi

Secret to Mini Cabbage Kimchi Taste

03

Sanitary Manufacturing (Food Safety Certification)

Mini cabbages are managed, produced and harvested following the certification of Good Agricultural Practices (GAP) by the Korean government. **Mini Cabbage Kimchi is produced in safe HACCP production facilities from which hazardous factors have been completely analyzed and eliminated.**

Manufacturing Process of Gunsan Mini Cabbage Kimchi

Food Combinations that go well with Gunsan Mini Cabbage Kimchi

Add it as a topping on noodles such as ramen and udon for unique flavors.

It is also great to add it to okonomiyaki or stir-fry it with vegetables and eggs.

Adding it to a stew or soup heightens the broth's taste. It is also a good hangover cure on the day after drinking.

It has a spicy flavor that requires no additional sauce.

How to achieve healthy diet with Gunsan Mini Cabbage Kimchi

“Korea has a low fatality rate of COVID-19 patients because they eat a lot of fermented food represented by kimchi”

- Research team of Jean Bousquet, Honorary Professor of Pulmonary Medicine at Montpellier University, France -

Helps the immune
system thanks to a great
